Subject: FW: WOUS Connectivity Report: Final FRN to be Released by the SAB

Hey Travis,

Glad to see that the FR notice on the connectivity study seems to be proceeding smoothly.

I wanted to ask again if you could forward the latest communications materials regarding the connectivity study for final review. Thanks!

Also I wanted to give you a heads up that on the Regional call this afternoon there seemed to be a lot of managers who had heard from their press officers that the outreach events beginning next week were policy related. It might be worth touching base to ensure everyone is on board with the functions and values focus—and to clarify the use/ function of the misconceptions and facts document in relationship to the general outreach.

Damaris
